South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Fred Martin

Subject: NO to Duke's dirty energy rate hike

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians. These are the resources we have in our state--and should be using.

Duke should stop investing in dirty, energy like coal and nuclear, and invest in the cheaper renewable technologies its executives claim to support.

Sincerely,

MF Kite
